Hi Peter,

I wanted to take a moment to thank you for the shows you provided our schools last year. I've heard about the many ways kids and teachers have enjoyed your presentations. The live music is very energizing and fun and your stage presence is great. Between your costumes and the "found items" drum kit, watching a show is quite a spectacle. Perhaps the most impressive aspect is that your music is fun AND educational. The water conservation messages that you've put to music are clearly understood by the audience. Children are ready to sing along after only a few bars. I do appreciate that after each song you play quiz-like games with the audience to reinforce the messages of each song. It's there that you find students are really learning from your songs.

I look forward to you playing for our students again this year. You have a delightful program, which I would recommend to any elementary school audience. Thank you for your service, and keep doing what you're doing, because it works very well.
